EXPERIENCE

IT EHR Systems & Cybersecurity Administrator

Vera French Community Mental Health Center · Davenport, IA · January 2024 – Present

- Lead enterprise cybersecurity incident investigations from detection through recovery, including phishing, account compromise, endpoint compromise, insider threat, and data exposure events.
- Coordinate cross-functional Incident Response Team activities with Compliance, Legal, Privacy, Operations, Human Resources, and executive leadership; provide technical recommendations and status updates.
- Conduct digital forensic evidence collection, chain-of-custody management, root cause analysis, and incident documentation for audit and compliance.
- Co-author and maintain the IT Incident Response Plan; develop playbooks, severity classifications, escalation procedures, and security runbooks.
- Design and facilitate organization-wide cybersecurity tabletop exercises (ransomware, phishing, insider threat, data loss) and lead post-incident reviews with corrective actions.
- Administer Microsoft Defender (EDR), Microsoft 365 security controls, MFA, Conditional Access, and endpoint detection and response technologies.
- Administer and modernize Windows, mobile, and Apple endpoints with Microsoft Intune, Entra ID, Apple Business Manager, and federated authentication; lead Windows Hello for Business rollouts.
- Administer SaaS EHR platforms and partnered end-to-end on migration from on-premises NextGen EHR to SaaS (PCE Technologies) and go-live of the customized V.E.R.A. system.
- Perform Active Directory security assessments covering identity, delegation, privileged access, and configuration risk.

Data Support Specialist

Vera French Community Mental Health Center · Davenport, IA · January 2021 – December 2023

- Delivered on-site and remote help desk support for 240 users across Microsoft 365, Active Directory, and endpoints.
- Owned patch management with cloud automation; ran daily backups and weekly cold-backup rotation (Veeam).
- Troubleshoot LAN, VPN, firewall, and switch issues; supported disaster recovery and business continuity.
- Led phishing simulations and security education; planned and rolled out Azure MFA organization-wide.

IT Intern

Vera French Community Mental Health Center · Davenport, IA · December 2020 – January 2021

- Built imaging and deployment workflows for new laptops; customized servers and applications for rollout readiness.
- Troubleshoot Windows Server and client issues during onboarding and expansion projects.
